

# For SALE

## 37MM ANTI-TANK CANNON

This WW2 cannon was made by National Forge & Ordinance Co. in Irvine, PA for the Dutch government to be sent to the Dutch East Indies in the South Pacific. The Japanese captured the islands before this could be sent so it remained in the States. It has been re-barreled to shoot a .50 cal blank round, which is shoots well. We are offering this rare gun for sale as-is, where-is (in Ohio) for \$25,000.
